to feel special

# albox

*to feel special*

Albox; Young, Dynamic and Experienced.

Albox which in the furniture industry since 1976 and creations with Turkey and the world, hundreds of residents and families in the heart of the brand's standing as a 3rd generation tells the story.

Albox Limited, currently in the third generation, continues its activities as a successful family business. We proudly announce our efforts to build a more innovative and powerful brand to our fourth generation. Since our company was founded by Osman Sağlam in 1976, it is aware of the necessity of providing high quality products with the highest level of design to the domestic and international markets. The basis of this content lies in the continuation of the product, material and production process open to innovations.

The Albox brand was born at a time when economic transformation changed people's lifestyles and furniture was about comfort, prosperity and pleasure (2006). Our company offers you the most special and high quality products from every corner of the world. Albox meets your needs with a wide range of furniture such as kitchen, bathroom, (Aldoor) door and living rooms and embraces our homes with timeless design.

Albox is one of the leaders of this change, proving how a product and its style affect many social and cultural aspects of our daily life, from classic kitchens to modular kitchens to all-wooden home furniture.

# Albox OUR VALUES

to feel special **X**

At Albox, we are doing our best and improving every day to be even better. This is the only way we can continue to produce kitchens for our customers that fit perfectly into their lives and living spaces. To make this happen, our master craftsmen benefit from years of experience and cutting-edge technologies, as well as their exceptional quality management and expertise.

At the same time, we repeatedly research tomorrow's most innovative wishes and needs to set the standard for today. This applies to both our technology and our environment. That's why we are committed to sustainable sourcing with PEFC approval, allowing us to meet not only our customers' demands but also our own.

## MATERIALS

Whether real wood or ceramic, glass or lacquer – all our kitchen models are produced using the highest quality materials with the highest quality technology. These materials not only have unique properties, but also have designs that will adapt to any combination and variation you desire.

Although we work with many different materials, they all have one thing in common: such a high quality that they retain their aesthetics and functionality even years later.

# Albox OUR VALUES

to feel special **X**

## PACKAGING AND RECYCLING

All products are packaged in accordance with molds (special coatings), which ensures the integrity of the products during transport and the safety of their surroundings. When transporting products, each one is protected from damage by the coating. In the next stage of packaging, corrugated cardboard and a polyethylene sleeve are used, which closes all the loops. Progressive packaging with various materials allows you to reliably pack each piece of products and protect them from pollution, dust, environmental influences, high humidity. Metal accessories (platforms, box, extras) are packed separately.

## QUALITY PRODUCT

Albox takes care to ensure that every product it uses is of high quality. In addition, it is also based on protecting us and the environment.

- It has the official manufacturer's certificate given to only Albox brand in the world by Rehau.
- Albox brand is protected by trademark patent at home and abroad.
- Albox manufactures its products in accordance with ISO 9001:2008 standards.
- Our product quality is under control with QualityAustria, one of the largest quality assessment institutions in the world.

# Our **KITCHENS**

It will attract you as the product  
with unmatched brilliance and  
highest resistance!

Give your kitchen the shine  
it deserves thanks to glass  
surfaces.

AlboxCRYSTAL

11

# AlboxCRYSTAL

While glass gives a sense of elegance and luxury to kitchens, it also creates highlights. RAUVISIO CRYSTAL is a polymer glass with a high quality, glassy surface, completely eliminating the disadvantages of real glass. It will attract you as the product with unmatched brilliance and highest resistance!

High-end elegance  
combining concrete  
and ceramic

AlboxCERAMIC

15

# AlboxCERAMIC

AlboxCERAMIC explores a new direction by combining concrete and ceramic. These help create a modern, vintage look or industrial style. The ceramic surface combined with the red, anthracite and gray appearance creates a brand new material type. The matte-gloss effect simulates the surface and feel of the ceramic plate, helping to create visual depth.

It's time to meet the  
self-handled special series  
glossy lacquer!

AlboxBRIGHTHLINE

19

# AlboxBRIGHTLINE

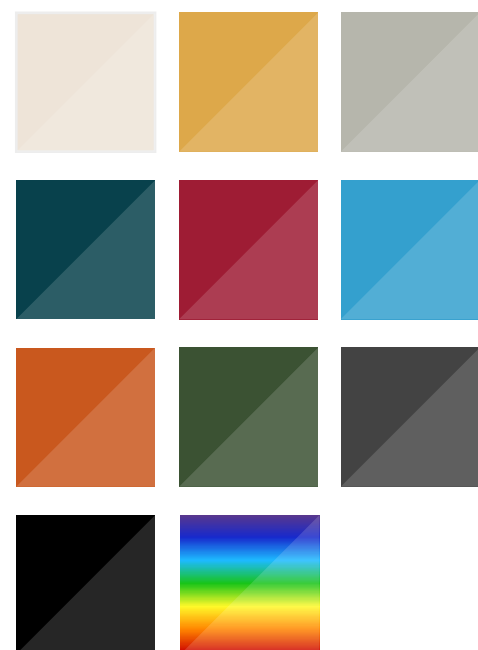

A specially designed model that does not need any handles; AlboxBRIGHTLINE.

Lacquered lid with a unique shine and handle with the same form.

## Color Options

Available in RAL Colours

Fast, easy, convenient and awesome! Get the feeling of realistic wood with special textured coatings. Add the warmth of wood to your home with flexible color options.

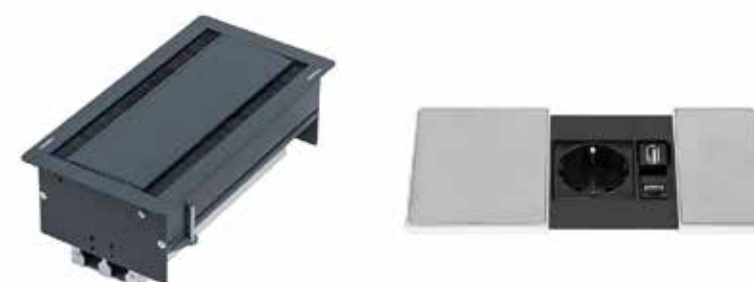

## Shed On Light Ideas

Light designs, moduls and accentuates: a balanced lighting concept is an essential well-being factor in every living area. Including, and especially, in kitchens. Spotlights integrated in bottom shelves are one solution. Light in the kitchen serves many purposes - from perfect illumination of the workplace to a pleasant atmosphere in the dining area. Numerous made to measure ideas make illumination of the room a sheer pleasure.

## Rapid Access

**ACCESSORIES**

## Functionality And a Wealth of Ideas

The arrangements for storing and keeping those store cupboard items have to be at the top of the list. Convenience and ergonomic considerations play a decisive role here. A clever layout makes optimum use of the available space.

**ACCESSORIES**

75

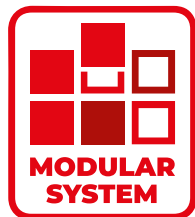

## Storage Space And Order

It's behind the doors and drawer fronts that you find those clever touches. Whether it's extra large drawers or handily placed appliances - you can choose from a range of storage systems for drawers and deep drawers. Internal dividers in solid wood or plastic can be arranged to suit any requirements.

# MODULAR SYSTEM

## The Perfect System

Every home and every room is different. Our grid system creates almost unlimited possibilities for planning your personal kitchen. A vast selection of unit widths and depths forms the basis for living and working as required. If necessary, we will also build the units in special sizes. Discover this new generation of kitchens.

## Before You Start

The first thing you need to know before starting our module system is the abbreviations that you will encounter frequently in the documents. Height is represented by "H" Width "W" Depth "D" and Thickness "T". In the Albox Module system, modules are dynamized according to a specific formula.

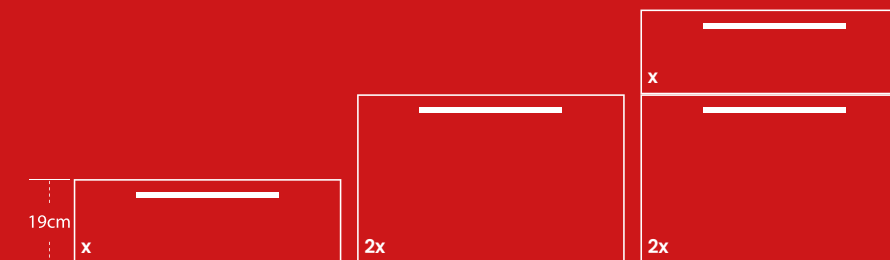

to feel special **X**

## How it's Work ?

In our modular system, each module is calculated to complete a part of a whole. One dimension of each module should be calculated as 19 cm and its multiples.
